

**Businesscase eConnect**

# Mission eConnect

Automatic administration for all

# ... so we established just that

- No human intervention
- Certified conversions
- Invoice data are semantically preserved
- **Automatic detection of the conversion route**
- **Integration via the API**
- **Free online tooling**

# Detection conversion route

- Receive all formats in your preferred format.  
So on-the-fly to the required version.
- Send e-invoices in the format of the receiver.  
So pro-active conversion.

# Integrated in the eConnect platform

- User is not bothered with formats
- All 25 connected software suppliers are compliant
- Big threshold disappeared.

# Conversion as a Service

Smart API to integrate conversions in the software

- No software adaptation
- Automatic support for an increasing number of formats
- Certify conversions
- Enrich data with automatic booking suggestions

From € 100 per month

# PEPPOL Accesspoint as a Service

- Conversion service integrated in sending function (lookup).  
So more matches with receivers.
- Conversion service affects SMP registration (more possible formats that can be registered).  
So more matches with senders.

# SCOBDO

SEMANTIC CONVERSION OF BUSINESS DOCUMENTS
